

TITLE OF THE PAPER, TIMES NEW ROMAN, 14 PT, CENTERED, BOLD, ALL UPPERCASE LETTERS

Author Name¹, Author Name² and Author Name³
¹Faculty, University, Country; ^{2,3} Company, Country

ABSTRACT

The abstract must contain 1. Problem statement, 2. Approach/methodology, 3 Results, 4. Conclusions. Please use Times New Roman, 10 pt. The length of the abstract must be within 300 words. Please use this document as a template. If the paper length exceeds the maximum limit or if the final paper does NOT conform to this Template, it may NOT be published. Please double check that the text is 10 pt in size throughout the paper except the title, which is 14 pt. Please read the following instructions carefully for full paper preparation and submission. Please save this template using your paper ID number as the file name, and then write your paper by overwriting this template.

Keywords: Four or Five Keywords (First Character of Each Word in Uppercase Letters), All Characters in Italics

INTRODUCTION

The paper must be prepared in the A4 paper (210 mm × 297 mm) format and saved as an MS Word (2010 or later version) file. Use the Times New Roman font, 10 pt, single line spacing. Avoid the use of underlined and/or bold text. The font sizes used in the paper, including text inside figures and tables, cannot be smaller than 10 pt.

Make the top margin 30 mm and the left, right, and bottom margins 25 mm. Headings should be left justified and without numbering. Leave one blank line between each heading and the first following paragraph, and no space before succeeding paragraphs. Indent the first line of the paragraph by 5 mm. All text should be left and right justified. Footnotes and underlines are not allowed.

HEADINGS

Use at most three levels of headings that correspond to chapters, sections and subsections. The first level headings for chapter titles should be in 10 pt, bold, justified, and uppercase. Leave one blank line before and after first level headings.

Second Level Headings

Second level headings should be 10 pt, bold, justified, and the first character of each word be in uppercase. Leave one blank line before and after each heading.

Third level headings

These headings should be in 10 pt, italics, and

sentence case. Insert one blank line before and after each heading. Fourth and lower level headings should be avoided.

TABLES, FIGURES AND EQUATIONS

Figures or Tables should be sized the whole width of a column, as shown in Table 1 and Fig. 1 below, or span the whole width of the left and right columns. Do not place any text besides the figures or tables. Do not place them all together at the end of the paper.

Tables

The table number and title should be placed above the table, hanging by 12.5 mm, and be left- and right-justified. Number the tables consecutively and place them after and close to where they are first referenced. Leave at least one line between the table, table title, and the text. Tables should be auto-fit to the window and no vertical lines or borders are needed. Do not abbreviate the word "Table." Tables are numbered with Arabic numerals instead of Roman numerals.

Table 1 This is an example of table formatting

Items	x	y	z
a	5	2	5
b	6	1	6
c	8	3	9

Note: Notes should be placed under the table leaving no space in between; 10 pt font, left- and right-justified.

Figures

Figure numbers and titles should be placed one line under the figure, hanging by 12.5 mm, and be left- and right-justified. Number figures consecutively in the order in which reference is first made to them in the text. Place them after and close to where they are first referenced. Do not compress figures (images of 600 dpi resolution or more are preferable). Draw figures clearly and embed text in the image properly. Do not cut and paste from another text and ensure that after printing, the images look good and any text they contain is readable. Do not use an outer boundary. Use the abbreviation “Fig.” except at the beginning of a sentence, in which case the word should be fully spelled out.

Color figures and drawings

You may use color figures and photographs in your paper. These will appear in color on the CD-ROM version of the conference’s technical proceedings. However, please check that your color figures are legible when printed in monochrome (black and white), as this is the way they will be reproduced in the hardcopy version of the GEOMATE journal.

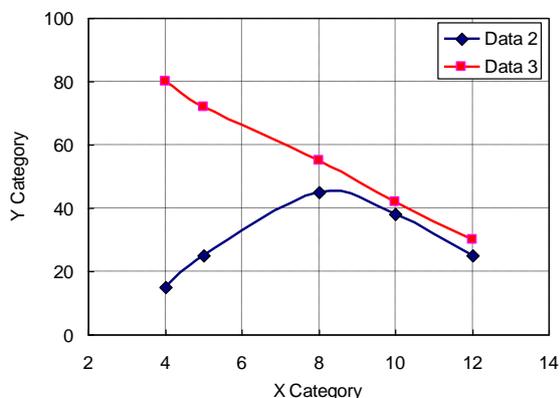

Fig. 1 This is an example of figure formatting.

Equations

Equations and symbols should be typed in the equation editor. Number equations consecutively with equation numbers in parentheses, as in

$$\sigma_{cr} = \sigma_{mu} + \sigma'_R (V_r)^{1.1} \quad (1)$$

Refer to equations as “Eq. (1)” not “equation (1),” except at the beginning of a sentence, in which case the word should be fully spelled out.

The equation number, enclosed in parentheses, is

placed right justified. Symbols and notation should be defined when they first appear. Leave one blank line before and after each equation.

CITATIONS AND REFERENCES

Number citations consecutively in square brackets [1]. Sentence punctuation follows the brackets [2]. Multiple references [2], [3] are each numbered with separate brackets [1]–[3]. When citing a section in a book, give the relevant page numbers [2]. In sentences, refer simply to the reference number, as in [3]. Do not use “Ref. [3]” or “reference [3]” except at the beginning of a sentence: “Reference [3] shows”

Try to avoid footnotes. Give all the authors’ names; do not use “*et al.*” unless there are three authors or more. Use a space after authors’ initials. Papers that have been submitted for publication but have not been accepted should be not cited. Papers that have been accepted for publication, but not yet specified for an issue should be cited as “to be published” [3]. In this case, state the year of acceptance. Use 5 mm hanging indentation for the references.

Paper Submission and Copyright

Authors must submit their papers in MS-WORD (2010 or later version) format only and send their copyright (pdf) to CONCRACK5.Papaer@gmail.com. If any difficulty is encountered, please contact Professor Toshiaki MIZOBUCHI or Professor Ippei MARUYAMA at CONCRACK5.Papaer@gmail.com. Authors should not submit a paper copy or a disc at any stage in the submission process, unless specifically requested.

CONCLUSION

Submitted papers must follow the above guidelines. Please inform others to submit in time. It is mandatory for an author or coauthor of an accepted paper to present it. If for unavoidable circumstances, you cannot attend the conference, please let us know in advance and we will publish your paper but no presentation slot will be on the card. We will send the proceedings to you after the conference by postal service.

CORRECTIONS

Comments from reviews should be incorporated in the revised version. Authors must also submit a separate document entitled “Response to Reviews” in which they list the reviewers’

comments and detail their responses. The “Response to Reviews” should be submitted with the final version of the paper.

ACKNOWLEDGEMENTS

Please make sure you register by the registration deadline for your papers to be included in the proceedings and to be evaluated for conference awards. This is strictly necessary for logistics and the smooth operation of the conference. Those who register and make payment after the registration deadline will not be guaranteed inclusion of their papers in the proceedings. Try to follow the reference style below.
